

ANNUAL GIVING

Each year, Southwestern Pharmacy focuses on current needs that you can choose to support that will have immediate impact on the students and the pharmacy program. The success of the Annual Giving Program is founded on the energy and generosity of our SWOSU College of Pharmacy alumni and friends, like you, who dedicate their time and resources to ensure the tradition of excellence in pharmacy education continues year after year.

*Every
Gift
Matters*

Gifts of any size make a difference. Whether you give to the Academic or Student Enrichment Fund, Scholarship Fund or General Unrestricted Fund, your gift matters.

Southwestern Pharmacy Annual Giving

The Southwestern Pharmacy Annual Giving Program benefits students immediately by supporting our highest priorities and most critical needs such as academic and student enrichment as well as scholarships. The gifts of unrestricted dollars to the Annual Giving Program are also critical to the pharmacy program. Please review the focus items described below and give strong consideration to supporting the Southwestern Pharmacy Annual Giving Program.

*Every One
Every Year*

Academic Enrichment Fund

iStan - Simulation Mannequin

These mannequins are utilized to help supplement physical assessment training and provide ACLS simulation sessions for our students. Currently, the School of Nursing is sharing theirs with us. With an additional iStan, it would allow us to use our own as well as allow us to explore other types of simulations with our students.

Improvements to Technology and Educational Delivery Systems

Staying on the crest of technological advances and educational delivery systems, as well as maintaining the present equipment, carries a high, ongoing cost. This fund will provide support to improve technology and educational delivery systems in the College of Pharmacy facilities.

Scholarship Fund

Pharmacy Foundation scholarships give students the opportunity to reach their potential by rewarding scholastic achievement and/or relieving the financial burdens associated with a pharmacy education.

As tuition and related educational expenses continue to increase for students in the SWOSU College of Pharmacy, the need for new scholarship funds as well as the enhancement of existing funds are extremely vital to supporting the educational endeavors of our students.

Gifts of any amount to the General Scholarship Fund will be used to award and help supplement as many scholarships as possible each year.

General Unrestricted Fund

Unrestricted gifts provide a crucial bridge between state support and the actual cost of running the pharmacy program, offering relief to the operating budget and directly affecting students, faculty and numerous programs in the College of Pharmacy. Unrestricted gifts, regardless of size, provide the flexibility to seize unique and important opportunities!

Student Enrichment Fund

You can directly impact the professional journey of the students by supporting this fund.

Your gift will help provide students access to local, regional and national conferences and events, professionalism development activities, and outreach and networking opportunities.
